

NATURALLY BEAUTIFUL SMILES

By

DR. EMANUEL LAYLIEV

NEW YORK CENTER FOR COSMETIC DENTISTRY
NEW YORK, NEW YORK

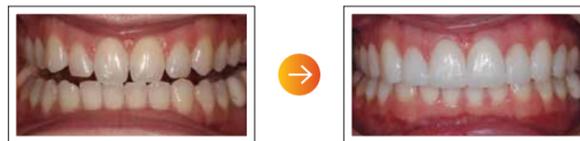

F

OCUS, as well as attention to detail and individualized smile treatment plans, are the cornerstones of Dr. Emanuel Layliev's patient-care philosophy. "I don't believe in 'cookie-cutter smiles.' It's the individual nuances of each patient that allow me to transform their smiles by playing up their positive attributes and detracting from any flaws," he says. "The smile I create for one patient may not work on the next. The process for that individual makeover is inspired by that patient's unique characteristics and natural beauty." While each patient's smile may be unique, Dr. Layliev's dedication to providing quality care remains constant. "The kindness we give throughout the process is unbiased."

“
Commitment and dedication to everyone who walks through the door is the key.”

WHO I AM

- 1. IN WHAT WAYS IS DENTISTRY LIKE ART?**
Restoring teeth and smiles to recreate the shape, contour, color and anatomy of nature requires true artistic talent. Your patient is your canvas and with their input, the changes you are able to make are truly a work of art. There is also a delicate precision required with every stroke of the hand when painting, molding, bonding and creating veneers or crowns that work with the facial features of your patients
- 2. THE SURGICAL ADVANCEMENT I'M MOST EXCITED ABOUT RIGHT NOW**
A laser to remove veneers and crowns! It is such a step up from the old way of cutting off crowns and veneers
- 3. HOW IMPORTANT IS A GREAT SMILE?**
A great smile should be the best accessory to your wardrobe! What it does for your confidence is amazing. It allows you to be the person you were born to be and with a great smile you'll never hold back
- 4. HOW I HELP BEAUTIFY MY PATIENTS**
Accentuating the positive features on a patient's face, while downplaying their personal dislikes makes them feel that much more beautiful
- 5. WHAT I LOVE MOST ABOUT MY PROFESSION**
All of it—the process behind initial treatment planning, implementing the procedures and the hands-on work, as well as the joy afterward as the patient experiences the entire transformation
- 6. WHAT SETS MY PRACTICE APART**
Because we've been around for close to 40 years, we offer care based on our rich heritage of experience coupled with the modern and innovative technology of the new generation
- 7. CELEB PHOTOS MY PATIENTS MOST OFTEN BRING IN**
Jessica Alba and Hugh Jackman

A Confident Smile

Dr. Layliev used porcelain veneers and Zoom!® Tooth Whitening to improve the look of this 31-year-old patient's small, uneven teeth and give her a more mature smile.
